

VACANCY

Quality Assurance & Compliance officer

Managing the company Quality Control program to ensure that the organization and documentation meets the accreditation and designation requirements. Ensures compliance with all federal regulations.

The job

The QA&C officer manages the total quality assurance program to ensure that all requirements are met as independent and internationally recognized certification body. Ensures compliance with legal metrology requirements as EU Notified Body and OIML Issuing Authority. Establish policies and procedures in cooperation with the operational and supporting departments. Conduct and coordinate audits. Participate in international gremia of legal Metrology (OIML, NoBoMet, WELMEC). Establish company policies and procedures to ensure compliance with federal laws (e.g. GDPR).

Qualifications

Bachelor's degree required (juridical or business). Minimum five years' experience in accreditation and certification. Excellent knowledge and understanding of testing and certification systems (ISO/IEC 17020, 17021, 17025 and 17065). Knowledge of legal metrology compliance requirements and government regulations preferred. Good oral and written communication skills, proficient working with MS Office / Atlassian Confluence. Able to work under pressure, multitask, adhere to strict multiple deadlines and to effectively analyze problems and demonstrate good judgment.
